

## Biomass Online Moisture Measurement

**Please complete this questionnaire and return it to the address indicated above!**

|                 |  |
|-----------------|--|
| Company Name    |  |
| Company Address |  |
|                 |  |
| Contact Person  |  |
| E-mail Address  |  |
| Phone Number    |  |

|  |  |                                     |
|--|--|-------------------------------------|
| Measurement Material                                   |  | (e.g. wood chips, pellets, ...)     |
| Size of Material:                                      |  | mm x mm x mm                        |
| Number of Different Types:                             |  |                                     |
| Moisture Content - Minimum                             |  | % MC                                |
| Moisture Content - Maximum:                            |  | % MC                                |
| Material Temperature - Minimum:                        |  | °C                                  |
| Material Temperature - Maximum:                        |  | °C                                  |
| Ambient Temperature - Minimum:                         |  | °C                                  |
| Ambient Temperature - Maximum:                         |  | °C                                  |
| Installation Location of the Sensor:                   |  | ((e.g. screw conveyor, bunker, ...) |
| Is there a dryer before the sensor?                    |  | (Yes / No)                          |
| Analog output for moisture content: _____ (Yes / No)   |  |                                     |
| Analog output for temperature: _____ (Yes / No)        |  |                                     |
| Display of measured values: _____ (Yes / No)           |  |                                     |
| Relay contact for moisture content: _____ (Yes / No)   |  |                                     |
| Connection & display via PC: _____ (Yes / No)          |  |                                     |
| Photos of the material attached: _____ (o.k.)          |  |                                     |
| Photos of the installation site attached: _____ (o.k.) |  |                                     |
| Additional Information:                                |  |                                     |
|  |  |                                     |
|  |  |                                     |
|  |  |                                     |
